James Mayner Is Named Head Coach At High School

The appointment of James Mayner as head coach of the football team of Belle Glade High School was announced this week by principal Frank O. Hobson.

The appointment was made definite by superintendent of schools, Howell Watkins, who said trustees had been contacted by telephone to ascertain if it was certain that the appointment would be confirmed at a meeting of the board later this month.

Watkins said, "He's one of the finest coaches I've ever known. Mr. Hobson told me when he recommended Mayner that he was one of the best young coaches that could find. Mayner is a very conscientious man."

Principal Hobson said Mayner would begin his duties as athletic director and head coach in time for the fall session starting in September. "He's got the qualities we need," Hobson said.

Mayner is no stranger to Belle Glade, having taught physical education and served as coach here during the 1949-50 school year. Douglas Lovett and W. H. "Brusie" Cook made up the rest of the coaching staff.

During the 1950-51 year Mayner was head coach at Pahokee High School, from which he took a leave of absence to complete his Master's degree at the University of Florida.

After obtaining his degree, Mayner went to Silvana, Ga., where he joined the team to conference champion. Mayner has been coaching at Fitzgerald, Ga., since his one year stint at Silvana.

It is expected that Coach Mayner will be a member of the student department of the junior or senior high school in addition to his coaching duties.

Hector Ouellette and Charles Godwin will serve as assistant coaches.

Mayner is a 31-year-old native of Tipton, Fla., a World War II veteran. He served as a staff sergeant with the 301st Bomb Group of the 419th Bombers Squadron in Europe. He was shot down over Germany and was a prisoner-of-war in Germany and Austria before being liberated at the end of the war.

Mayner married the former Miss Peggy Thompson of Belle Glade and they have two children, Melinda, 2, and Mark, 1.

More Light For City In Stone As Street Light Poles Go Up

Work starts Monday on setting 31 new street light poles on Main Street and Ave. A, a step forward in the project to bring more light to the city.

John C. A. Lewis, the Florida Power and Light Co. here, said work would be complete, if all went according to plan, in about three or four weeks.

The 31 poles holding the new mercury vapor lights replace the 17 now in operation, providing nearly 14 times more light than we have now.

The present lights afford 2,400 lumens per lamp. The new lamps give off 20,000 lumens per lamp. This amounts to eight times more light per pole.

FP&L linesmen are also completing street lights along a section of Palm Beach Road.

County Is Declared Disaster Area

Federal Loans Authorized Farmers

Beans And Corn Will Be Replanted

Three counties in south Florida, Dade, Broward and Palm Beach, have been declared disaster areas for emergency loans to widespread crop losses arising from freezing temperatures.

The Herald was notified of the action in a telegram signed by our three national representatives: Senators Holland and Sanders and Congressman Rogers.

Farmers and citizens who suffered loss were being asked to contact John Stewart, Local Farm and Home Administration agent, if they wish to make application for federal loans for replanting.

"Loans are being made under two classifications, priority loans for those who are already replanting or who plan to replant, and non-priority loans for those who will replant after writing off present losses."

Officials stated that probably only beans and corn would be replanted, since the season is so far gone.

Experts now claim that the last blast of cold weather to hit South Florida was the worst in nearly 30 years, and estimated upwards of 75% of this country's vegetable crop in the Glades as well as thousands of acres of pasture land in the county has been ravaged.

Thus was the picture reported to the county commission Monday by county agent M. U. Mounts. Mounts made the same report to U. S. Senator Speppard Holland, who had asked that the survey be made.

Mounts said some parts of the county were in "pretty bad shape."

Ramie Group Elects 1956 Officer Slate

The recently organized Florida Ramie Growers and Processors Association held its annual meeting Tuesday night at the Everglades Hotel in Miami. Selected and elected Fred Yount, President; Herman Close, Vice President; and Dr. R. V. Allison, Secretary-Treasurer.

In addition to the above officers, Alex Ramsey, Mrs. Ruth Weller, and Dr. J. E. Jones were elected Directors.

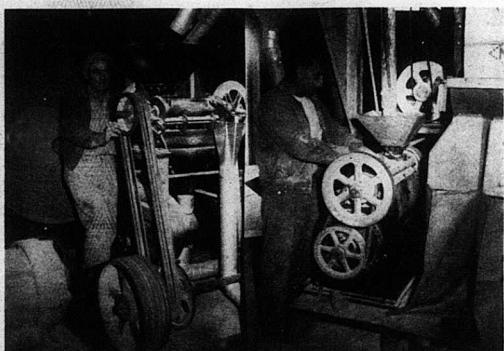

Dr. Allison reported on recent activities of Harley Morton, Fiber Consultant, employed by the I. C. Bank, who works with textile plants in the eastern states assisting in blending ramie with dacron and other synthetics as well as cotton.

Reports from two of the largest and best known manufacturers were very encouraging, both on blends and particularly on 100% ramie woven for tarpaulin material.

It was reported at the meeting that textile operators in Cuba are actively interested in fiber and ramie for specific purposes.

GLADES GROWN AND MILLED RICE IS OFFERED BY BELLE GLADE MERCHANTS

RICE, the world's most important food item, is now grown and milled, ready for the consumer.

You may purchase Glades grown and milled rice from your local grocery.

Frank Anderson of South Bay has installed a complete unit and is busy milling the 500,000 pounds of rice now in storage in his plant.

Since 1950 rice has been the subject of experiment in the mucklands, both as an item of commerce and as a cover crop which produces valuable rice as a cover crop and recognize the potential value of the grain as a cattle and poultry feed.

While rice production commercially is strictly a quota crop, and there is very little history in the Glades, this crop, it seems, has a future in the muck lands as a cattle and poultry crop.

Florida consumers much more than 30% of the total rice consumption east of the Mississippi and south of the Potomac; Cuba and other Caribbean countries are increasing consumption of rice, and import a majority of it from the United States—Louisiana, Texas, and

Arkansas. Florida has approximately 9/10 of a cent per pound and milled, ready for the consumer.

Senator Surveys Crop Damages In Conference Here

Senator Spessard Holland made a quick stop here Saturday. He met with farmers, growers and produce men to determine how badly the cold weather had hit the area.

Meeting with Pioneer Growers Co-op at 2 o'clock, Holland said, "I want to know how bad the situation is here in order to get speedy accumulation of what the distress is and then work out a plan of action."

Consequently Paul Edwards also made a quick visit to the Glades Thursday to investigate damage by the cold. His trip carried him to meetings in Moore Haven, Clewiston and Belle Glade among other points around the damaged farm lands here.

C. A. McCabe, president of Pioneers Growers, told the senator,

"The worst is yet to come. I don't think there's any widespread damage here."

Holland was told that the southwest side of the Lake Okeechobee area was hardest hit in the first blast of cold weather.

Senator Holland pointed out that he wanted just one agency here to relay information to him rather than get a number of conflicting reports.

C of C Urges Local Business To Observe Products Festival

Directors of the Belle Glade Chamber of Commerce met Wednesday evening at the Chamber office and agreed to take a day off from business to observe the Florida Products Festival as proclaimed by Governor Collins Jan. 19-20.

Merchants are asked to display local and state grown products on menus, placards and advertising.

The directors discussed their request to SRD officials sent earlier this week in the form of an inquiry about when SRD improvements would begin.

The Chamber learned Thursday that construction would start after Jan. 31.

It was announced that 776 men had been held at the local office of the SRD through Wednesday evening through the 20th.

Attest was directed to the Florida Products Festival booklet, "What's Happening in Florida," by saying that civic groups were urged to call in meetings and special events for inclusion in the booklet.

Plans for the Chamber to sponsor a fishing tournament were discussed and will take place at an unannounced date if Slim Corbin agrees to the use of his fish camp as the site.

The Chamber also voted that a letter be sent to organizations here asking that they consider the burden put on them by purchasing tickets for distribution for the various club sponsored special events such as picnics, shows, circuses and similar events.

The letter will urge that the clubs refrain from this phase of solicitation.

Educators Continue Extension Work For Negro Teachers At Lakeshore High

Extension classes on problems of migrant education continue at Lakeshore High School under the supervision of the county board of education and Florida A. and M. University.

Seventeen people have enrolled in the classes to date, according to Miss Elizabeth Sutton, the county's special advisory on migrant education.

The group with representatives from all negro schools in the Glades, is working for better ways to educate children in schools where negro migrant children live and go. Several committees have been appointed to study problems pertinent to the teachers.

One committee is evaluating a list of extra instruction material which individual students can use while teachers progress with other groups in their classes. The materials including reading, spelling and arithmetic classes.

The basic experiences of the migrant child from a vital part of his or her educational pattern.

Other committees are working toward finding a method to help the teacher in conference with migrant children to determine what the child has done and what the child interests are.

The results of the conference with the child will help to learn where he fits into the new school.

These classes continue through March 22 in the distribution.

The town of South Bay will receive \$1,314.16.

This steering committee will advise the entire group on what the classes should study.

GLADES CITIES WILL NET OVER \$11,000 FROM CIGARETTE TAX

Belle Glade's share of money available off distributed from cigarette tax will be \$11,000.

That amount will be used to help toward finding a method to help the teacher in conference with migrant children to determine what the child has done and what the child interests are.

New Officers Elected At St. John Church

At the regular monthly meeting of the vestry of St. John the Apostle Episcopal Church, the following officers were chosen for the coming year:

Dr. G. R. Townsend, senior warden; Donald Parke, Junior Warden; E. M. Lively, treasurer, and Thomas Chappell, clerk.

The senior warden's office is

now in the hands of Mr. and Mrs. Joe's, who have sold some weather balloons the second week. Should be over the coast about next week. There's another job for Mr. Dexter.

The last straw: The famous Bay horses were in town last Saturday night, and the leaders of the local pubs, Harry Leibovitz, local barman, said the horses are pampered like everything. There's a chimpanzee with them, a horse, a squirrel he won't let people touch, and others all the time. Now he says—eight horses and a beer drinking monkey . . . which way did the elephants go . . . ?

Belle Glade continued their onslaught in the third stanza and increased their lead by 14 points going into the final quarter.

The Eagles made a furious comeback attempt in the final stanza and racked up 20 points which was not enough as time ran out.

The Rams were pased by J. P. Jones and Johnny Thomas who turned in their best efforts of the season and hit for 20 and 19 points.

Kenny Norris led the Rams in rebounds snatching 11 loose balls from the boards.

In the 10th game preliminary round, Belle Glade defeated the Rams 30-23 putting the game out of the fire in the last period. Mike Challancin with 16 points and Charles Schoenfeld had 6.

B. G. Rams 45

From their early season upset in league-leading Ft. Pierce, the Rams stormed to a 56-48 win over the Golden Tornadoes of Pompano.

J. P. Jones collected 20 points for the second night in a row. Johnny Thomas got 16. Ken Norris again controlled the backboards in the rebound department.

Billy Jackson had his best night with 19 points and picked up numerous point interpretations and rebounds.

In the curtain-raiser the Belle Glade Bees were helpless before the Pompano Juniors, losing 38-26. Pompano won the March 6, 6 ft. 3 in. forward, hit for 26 points. Challancin and Roberts led Belle Glade with 10 each.

"The turnpike is a most modern and safe highway," he said. "It will be a fully-controlled limited access highway." Eldredge said a motorist could get on the highway at any of the 13 interchanges on the 110-mile stretch. It will run continuously without interruption and, for example, could save three hours from Miami to Jacksonville when the extension is completed.

The turnpike, Eldredge said, will only cost time but save lives. He said 40 lives might have been saved in 1954 if the turnpike had been built.

"We feel it will be a definite improvement. It comes to bring a safety factor."

The turnpike will also be of benefit in offsetting the great expected expansion of traffic in coming years. Relief of the congested highways in the state will be a major contributing factor in saving lives.

Eldredge said estimated costs for traveling the 110-mile stretch would be \$.25 and for traveling the entire state route might be \$.50.

Paul Rogers Asks Government Loans For Crop Damages

In confirmation to last week's telegram from Congressman Paul G. Rogers concerning emergency loans to farmers who suffered from recent freeze, the following news report was received from Washington.

Congressman Rogers called upon the Department of Agriculture to investigate the agriculture in the damaged area.

An emergency disaster area because of the heavy damage to tender and hardy truck crops including young sugarcane in the Glades area.

Congressman Rogers was advised that emergency loans if the area was declared a disaster area, could be made available to individual suffering loss.

These loans being for 35 percent of the value of the damaged crops for replanting the destroyed crops.

It would be necessary for the party suffering the losses to show actual losses and ability to replace same and the inability to raise money to meet the losses.

Under the new rules funds from other sources. The Department also advised the Congressman that loans up to \$7,000.00 could be approved on the local level with \$25,000.00 ap-

proved on the state level if the area was above that world wide have to have approval in Washington.

The Department of Agriculture further advised that the Farmers Loan Administration through their state office in Gainesville, Florida would handle applications for loans and the State Director, William T. Shaddick, the Sheeps Office Building, 35 N. Main St., Gainesville, would have direct supervision of the loans and his recommendation they should then be approved by the Secretary of Agriculture in Washington.

It is estimated by the Department of Agriculture in Washington that disaster loans should be made available in

from two to seven days to be processed, this being dependent upon the percentage of damage and the individual case. Money obtained under these loans would not be used to expand business operations merely to provide assistance in replanting the destroyed crops.

A meeting of the F. F. A. was held Thursday night, with Vice President Louis Friedheim presiding. The main part of the meeting was the installation of the "Green Hands," and the awarding of the Green Hand pins. Recipients were Jerry Edwards, Alvin Wallis, Jim Morgan, Louis Buckner, George Cox, Neal Livingston, Edward Humphries, Kenneth

McDonald, Tommy Allen, and Harold Royals.

The chapter voted to charge \$1.50 per night for any F. F. A. meeting using the chapter hall. It was decided that all girls interested in the F. F. A. sweethearts will perform at a high school assembly and will be eliminated by disinterested judges. Following the elimination there will be a contest which will be announced later and the public will be invited.

F. F. A. member to be introduced to the public this week is David Morris. David has been working for the F. F. A. for five years. David has always had cattle raising for his present project. He is a member of the sweetheat committee, and is a very good committee member.

Science Lecturer Says Justice And Healing Is Available To Everyone

Complete justice, health, and happiness are available to all through spiritual understanding of God as divine Love, John S. Sammons of Chicago, Ill., told an audience here last Sunday afternoon.

No one is excluded from the abiding interest and guiding trust of a God that is Love, Mr. Sammons declared. Scientific understanding of God's love for man enables men and women everywhere, he said, to cope effectively with discontent, disability, and other problems of daily living.

On nationwide tour as a member of The Christian Science Board of Lectureship, Mr. Sammons spoke at the First Church of Christ, Scientist, Belle Glade, in the new High School Auditorium. He was introduced by the First Reader, Mr. M. H. Miller.

Speaking on "Christian Science: The Practice of God's Love for Man," Mr. Sammons "because it has always existed,

described the love of God as "all-pervading, all-comprehending, unrestricted, hence, universally known, and impersonal."

It would be more natural than divine Love's tender care and infinite provision for its idea?" he asked.

The words and works of Christ Jesus he said, have established the fact that man can be separated from the justities, compassion, and harmony which mark his spiritual unity with God.

Commenting on the Master's statement, "I and my Father are one" (John 10:30), the lecturer said: "It is difficult to accept any sense of separation from his Father-Mother God. He refused to believe that there is a mist, veil, or barrier between man and his Maker—that there is something to penetrate, to climb over, or crawl under, in order to get to divine Love."

Despite traditional opinion, the natural and spiritual relationship between God and man never needs to be re-established, because it has always existed,

he said.

Churches of Christ, Scientist with the spiritual qualities of honesty, unselfishness, and obedience are important to an understanding of Truth will be brought out at Christian Service services Sunday.

COCA-COLA'S FIRST LOAD of the new 26 ounce family size bottles is pictured being made ready at the Pahokee plant by the Company's Glades supervisor, Irvin Malloy, and route salesman Bob Usher. The new "big brother" size was placed on the local market, Tuesday, January 17th.

When Glades community houses go shopping this week, they will find a familiar shape in a new and larger size on the beverage shelves.

The family-size Coca-Cola bottle now put on sale here is a "big brother" to the present 6½ oz. bottle, which is known from Boston to Bangkok and back again.

It's fame is such that the World War II German prisoner stepping off a gangplank at an American port sported a familiar red sign and, turning to an MP, said: "I see you have Coca-Cola here, too."

The soft drink is sold in over 70 countries, according to Mr. David T. Palmer, Manager of the Palm Beach Coca-Cola Bottling Company. "Just about everywhere," he added, "except behind the Iron Curtain."

But at least one instance the curtain was pierced. Mr. Timbrook was pointed out. That was when General Eisenhower

sent Marshal Zhukov a case of Coca-Cola after the Soviet military leader enjoyed a bottle during the Berlin Blockade. Mr. Timbrook said definitely the "big brother" would not replace the standard-size bottle, designed in 1915 at the recommendation of a bottling official who urged: "We need a Coca-Cola bottle which a person will be able to tell at a glance what it was."

Although about 80 percent of all the Coca-Cola sold is in bottles, Mr. Timbrook said definitely he had no plans to replace the drink never intended it to be more than a soda fountain beverage.

In 1896 John S. Pemberton, a druggist, prepared a soft drink syrup in his backyard in Atlanta, using a three-legged iron pot heated by a wood fire.

He took a jug of the syrup to Jacobs' Pharmacy at the historic

in New York and in conjunction with the standard sizes offered in Boston and Los Angeles, and this is another step in American National Foods' policy to more closely coordinate sales merchandising, and promotional efforts for the benefit of growers, shippers, receivers and customers.

F. F. A. Advisory Council Praised

Belle Glade's advisory council to the F. F. A. at Belle Glade High School gained national recognition this month as the result of an article printed in the January issue of "The Agricultural Education Magazine."

The article was written by the vocational-agriculture instructor, Sam Lowell.

In the article, Lowell says:

"My right arm in teaching vocational agriculture is an advisory council."

The article explains how the advisor council was set up with permission from the principal and Board of Public Instruction.

The School Board appoints nine members with terms of three years who meet every two years.

Currently the members of the council are: F. L. Anderson, Mrs. William Mason, South Broward, chairman; W. J. Norris, Mrs. Ruth Wedgworth, Paul and Donald Kirchman, W. S. Ingram, Dale Ellis and Roscoe Braddock.

The article lists some of the many ways the advisor council helps the high school as helping to organize the teaching program, making a land-use plan for 60-acre school farm, obtaining outside help for ditching and leveling

the school farm, and making improvements to the school board.

The list goes on to include writing letters on behalf of the Agriculture Leadership Award, setting up chapter awards and serving as judges in the judging of farm equipment and solving many other problems.

In a two year period through the advisory council the community has contributed improvements to the department totaling over \$8,420 in actual value.

Emphasis has been placed on the physical factors necessary for doing the best job.

Lowell concludes the article by saying: "The advisory council is certainly not a cure-all; for all the problems confronting the vocational agriculture teacher, but in my opinion, it is the greatest aid a teacher can have in carrying out his program."

Unusual Combinations Shown in Corsages At BG Garden Club Meet

The Belle Glade Garden Club met last Thursday afternoon at the clubhouse, with President Mrs. Irwin Zump presiding.

Mrs. Van Horn introduced Mrs. William Mason, South Broward, chairman of corsages. She made various and unusual combinations of corsages, one of which was a yellow hibiscus with a center of purple violets, very attractive and unusual.

Mrs. W. R. Hobbs gave a talk on points for judging roses.

The contest on species roses was won: 1st, Peace Rose; 2nd, yellow buckcane; 3rd, C. W. McDonald;

3rd, Etoile de Holland, Mrs. Herbert Beck.

Annnouncement was made that two almond trees would be planted on the local High School grounds on Arbor Day. The group agreed to enter the project for the first year on school grounds, for an award next year.

It was voted to postpone the tour of Fairchild Tropical Gardens in Miami until April 17. Mrs. C. J. Aspey, chairman of Florida State, reported that arrangements were completed and that a meeting would be held at her home Tuesday, Jan. 17.

The group also voted to invite the Chosen Garden Club to attend the club's February meeting on Feb. 11.

Hostesses were Mrs. W. P. Halbrook, Mrs. Clara Gledhill and Mrs. Harold Riedel.

Others present were Mrs. Debra Altman, Mrs. C. A. Bailey, Mrs. J. S. Brown, Mrs. D. C. McLean, Mrs. Frank Parker, Mrs. Carl Hayes, Mrs. Richard Hodges, Mrs. F. L. Hollingsworth and Mrs. Bryant McLennan, Mrs. J. L. Scott, Mrs. J. E. Spence, Mrs. Lonnie Warren and a guest, Mrs. George Campbell of Truman, Arkansas.

Dr. Allison Attends Funeral Of Sister

Dr. R. W. Allison returned last week from Bryan, Ohio, where he was called by the death of his sister, Miss Mabel Allison, who had been ill health for several years.

Funeral services were conducted by the Rev. Dr. Dele D. Bryan in burial in Bryan.

Miss Allison was a visitor at the Washington and Lee campus in 1922. It ranks as one of the largest national fraternities.

Braddock is a 17-year-old
